

VOCABULARY BATTLESHIP DIRECTIONS

1. Write 5-8 vocabulary words horizontally and vertically on your Battleship Board, Please do not write them backwards. Each letter of the word goes in one box, so make sure you have enough boxes in a row before you write in the word.
2. Put up a barrier between you and your opponent.
3. Take turns calling out coordinates (example B-8)
4. If your opponent has a letter in that coordinate they will say "hit letter ____" and you will record the letter you hit on your Guess Board. Your opponent will highlight the letter you hit on their Battleship board.
5. If your opponent says "miss" you will record a dot on your Guess Board so you will not call the same space again.
6. Take turns until someone guesses all the letters in a word. The person who is trying to sink the word must now give the definition of the word. If they give the correct definition they have "sunk" the word. If they give an incorrect definition they must try again on the next turn. Once you sink an opponent's word they must circle the entire word to record that it is sunk.
7. The game continues until one player has sunk all their opponent's words.

VOCABULARY BATTLESHIP

My Guess Board (opponent's ships): Put a dot in the squares that you "miss" so you won't call it again.
